COSMETIC PESTICIDE BAN MANITOBA QUESTIONNAIRE

Q: If elected, would you support protecting public health by maintaining the ban on these so-called “cosmetic pesticides” as a municipal by-law in the City of Winnipeg, in the event of provincial changes?

A: I fully support protecting public health by maintaining the ban on cosmetic pesticides. Protecting the public health of Winnipeggers, especially our most vulnerable populations, is critical and we must do everything in our power to ensure the health and wellbeing of everyone. We cannot risk the health of our children by allowing potentially dangerous pesticides and chemicals in our lawns, parks and schools. I fully support maintaining the current ban, and encourage clean, green solutions.
